Versa Lift

Business Lifting Applications

Don't risk employee injury or lost time from lifting or carrying supplies, stocks, file boxes, etc. up or down stairs for storage. The push-button Versa Lift will transport any load up to 250 lbs. up/down between floors in seconds!

The low-cost Versa Lift is an ideal way to:

- Move File Boxes to Upstairs Storage Room
- Store Office or Plant Supplies Overhead
- Move Retail/Restaurant Stock Up/Down Stairs
- Lift to a Mezzanine in a Plant or Warehouse
- Store to Loft in Barn, Shop or Storage Bldg.

Take Safety and Storage to a New Level with Versa Lift!

Check these Versa Lift Options & Upgrades!

AS-24 or AS-32 Auto-Shutter (Models 24 & 32)

The Auto-Shutter is a hinged door panel that automatically deploys to cover the lift opening when the lifting platform is lowered. The Auto-Shutter accessory is required when the Versa Lift is installed in anywhere children or pets might have ready access to the lift opening, such as within the living space or closet of a home, or an attic space accessible by a passage door within the home, or on a deck, etc.

Each kit includes detailed instructions and all of the parts and hardware needed for installation.

TL-24 Truss Leg Kit (only for Model 24)

The Truss Leg Kit adapts the Versa Lift 24 to fit between roof trusses on 24" centers (standard Versa Lift housing legs will not fit between truss members, and truss members may not be cut because each member is a load bearing part.)

The TL-24 Truss Leg Kit includes a specially designed set of housing legs. Each kit includes detailed instructions and all of the parts and hardware needed for installation.

PE-23 Platform Enclosure (for Model 24)

The Platform Enclosure includes two fixed end walls and two hinged ramp doors. Doors latch upright to contain objects on the platform for lifting. When lowered the doors become loading ramps for the lifting platform, making it easy to roll carts and other wheeled items on or off of the lifting platform. Great for lifting household items like groceries, small appliances, laundry, firewood, and more! Kit comes complete with all hardware and detailed instructions.

(Note: Cannot be used with TP24 Treadplate.)

TP-24 Treadplate Platform (for Model 24)

This heavy duty platform cover provides a durable non-slip aluminum tread plate that enhances both appearance and performance of the Versa Lift platform. The TP24 platform upgrade is ideal for heavy use applications where the standard platform surface may show signs of wear and tear. The design also adds appeal for garage and auto enthusiasts. The TP24 cover fits over the standard lift platform. Includes hardware and complete instructions.

(Note: Cannot be used with PE24 Enclosure.)

Versa Lift Mobil Carts:

Tuff-Cart (for All Versa Lift Models)

Tuff-Cart lives up to it's name providing easy mobility for heavy loads (up to 250 lbs). Great for transporting and storing gardening tools, hobbies, crafts, cleaning supplies, etc. so you can have everything in one mobile work center! Stores it in the attic when not in use!

Smart-Cart (for All Versa Lift Models)

Smart-Cart is elegant and functional. Use it indoors to serve guests or outside for pool parties and cookouts! Shelves are lipped all around, but front lip is lower making it easy to slide off trays, plates, etc. Easy to clean, won't chip or rust. Four casters make this cart highly maneuverable. Supports up to 250 lbs.

Work-Around Cart (for All Versa Lift Models)

Work-Around Cart takes your tools where you need them. Roll it into the driveway to repair the family car... Roll it anywhere in the home such as the bathroom, kitchen, patio or back yard! With the **Work-Around** you won't have to keep running to the garage for another tool!
